### **Technical** Data Sheet

## UR1025H\_HU0400 EFDEDUR-HighSolid-Coating

#### **Product description**

Product technology solvent-based 2-component coating

**Application area** e.g. in the mechanical engineering and plant construction sector

**Application** For interior and exterior applications

Blocking resistance good

Substrate Steel, Galvanised steel

#### **General product properties**

Binder-Base Acrylic Resin

Colour in accordance with RAL 840 HR

other colours on request

Gloss value satin glossy 60-75 GU, Angle 60° DIN EN ISO 2813

ViscosityFlow time 45-55 sec., 4 mm flow cupDIN 53211Density1,35-1,65 g/ml after addition of hardenertheoreticalSolid mass68-75 % after addition of hardenertheoreticalSolid content in volume50,5-55,0 % after addition of hardenertheoretical

**Reference product** The specified values refer to the product UR1025HRA715.

**Resistance to storage** approx. 12 month in original packagings at an ambient temperature of 5 to 25 °C. Open

packages are to be used within a short time.

The minimum storage stability of each batch is stated on the product label. The material does not necessarily become unusable if stored for longer than this period. However, for quality assurance purposes, an inspection of these materials is essential to ensure that they are still suitable for the intended application.

#### Application and processing

**Pretreatment**The substrate must be free of adhesion-impairing substances such as oil, grease, rust, scale, mill scale, wax and release agent residues. We recommend the use of suitable

mechanical pre-treatment processes (e.g. blasting, grinding) or chemical pre-treatment

processes (e.g. phosphating) according to the requirements.

**Structure** Substrate On zinc-phosphated steel plate

Top coat UR1025H

Mixing ratio 8:1 HU0400 Dry film thickness 40 μm

**Note before use** Prior to use, stir well or mix components homogeneously (e.g. with fast mixer).

Hardener HU0400

Mixin ratio Parts by weight 8:1

Our technical data sheets are to provide you with advice based on our latest state of knowledge. This guidance does not release you from your own obligation to test our products for their suitability for your intended purposes and applications.

## **Technical** Data Sheet

# UR1025H\_HU0400 EFDEDUR-HighSolid-Coating

Volume parts 5:1

**Thinning** EFD dilution 400320

EFD dilution 400500

**Processing conditions** from 10 °C to 25 °C

max. 2 hrs. / 20 °C **Processing time** 

The processing time can decrease at higher temperatures and/or under pressure.

Airless spraying as delivered viscosity after curing agent addition

Nozzle 0,33 mm Angle 40°

Material pressure 120 bar

High pressure spraying Set to 18-22 sec / 4 mm flow-cup after adding hardener DIN 53211

Nozzle 1,6 mm

Spray pressure 2-4 bar

Material usage without application loss 100-120 g/m<sup>2</sup>

layer thickness 40 µm after addition of hardener

theoretical

Oven drying up to 80 °C possible (object temperature)

Air drying 20 °C, 50 % relative humidity

**Dust drying DIN EN ISO 9117-5** after 30 minutes (degree of dryness 1)

Dry to the touch after 4 hours (degree of dryness 4) **DIN EN ISO 9117-5** 

**Full drying** after 14 day/s (pendulum damping) **DIN EN ISO 1522** 

Cleaning of equipment EFD dilution 400500

### Further processing of coated pieces

Repainting possible with same quality, dry at the earliest after matting.

#### Comments

**EFD** info Further technical information can be found in the EFD Info. No. 170.

Work-and Healthprotection The standard personal safety precautions must be observed when handling painting

materials. Detailed information about dangerous goods, safety data and

recommendations concerning Health and Safety at Work and environmental protection

can be found in the corresponding safety data sheet.

**Test conditions** All information is based on a standard climate 23/50 DIN EN 23270. All information is

based on our product knowledge an experience. We have no direct influence on the

application itself. Please do not hesitate to contact us for further information.

The information provided here contains reference values and does not constitute a

specification.
