

Technical Data Sheet

DURELASTIC

Amin-Accelerator BD7560XRU999

Accelerator for BP-hardenable systems

Technical / Physical data	Colour	yellowish
	Original viscosity	approx. 450 m.Pa.s
	Addition quantity (by weight)	0,1 to 1,0 % , as required
	Thinner	DURELASTIC-Resin-Thinner 400900
	Density calculated	1,0 g / ml + / - 0,05
	Solid content calculated	approx. 70 %
Storability	Approx. 6 month in original packings at an ambient temperature of 15 to 25 °C, in case the original packings are tightly closed. Opened packing must be used very shortly. The minimum storage stability of each batch is mentioned on the product label. A storage time beyond the mentioned date doesn't necessarily mean that the material is unusable. In this case a check of the qualities which are important for the respective.	
Processing and application	Processing The accelerator addition depends on the respective use. Attention: Accelerators BD7560XRU999 and hardener separately mix and store	
	Cleaning of working equipment EFD-Cleaner 400906	
	Advise for safety protection and protection of health The usual precautionery measures for ventilation as well as for personal protection are to be observed when handling painting materials. Detailled information about dangerous goods, sayfety data and recommendations concerning health protection and environment protection can be read in the corresponding safety data sheet.	
Special remarks	Test conditions All information is based on a standard climate 20/65 DIN 50014.	
	All information are based on our product knowledge and experience. To the
