| ■ Deposition Voltage   | 100-260 voltage   |  |                         |  |  |   |  |  |                        |  |                 |                           |                 |                        |          |                |                 |                      |                 |   |  |
| ■ <b>Health &amp; Safety at Work guidelines</b>  |   |  |                         |  |  |   |  |  |                        |  |                 |                           |                 |                        |          |                |                 |                      |                 |   |  |

Our technical data sheets are to provide you with advice based on our latest state of knowledge. This guidance does not release you from your own obligation to test our products for their suitability for your intended purposes and applications. The sale of our products is in accordance with our terms of business and delivery.

**FREIOTHERM-KTL-Acrylate**  
**WK4195HRU916**

The standard personal safety precautions must be observed when handling painting materials. Detailed information about dangerous goods, safety data and recommendations concerning Health & Safety at Work and environmental protection can be found in the corresponding safety data sheet.

**Curing**

■ **Object temperature**

Recommended baking temperature 20 Min./160 °C

green cross-hatching = baking conditions with good final properties

**Resistance to storage**

■ One Turn-Over per year

Approx. 9 month in original packagings at an ambient temperature of 5 to 25 °C. Protect from frost. Open packages are to be used within a short time.

The minimum storage stability of each batch is stated on the product label. The material does not necessarily become unusable if stored for longer than this period. However, for quality assurance purposes, an inspection of these materials is essential to ensure that they are still suitable for the intended application.

**Specific comments**

■ **Test conditions**

All information is based on a standard climate 23/50 DIN EN 23270.
