

Nomenclature – Powder Coating

FREOPOX-Powder Coating
 satin mat, smooth
 RAL9010 Pure white

PB1002ARA910

Productgroup

P = Powder Coating I

Binder-Base

A = epoxy polyester resin
 B = epoxy polyester resin
 D = divers
 E = epoxy resin
 F = polyester resin
 I = polyester resin
 K = polyester resin
 L = epoxy polyester resin
 M = polyester resin
 P = polyester resin
 R = polyester resin
 S = polyester resin
 T = polyester resin -PT912
 O = polyester resin -PT912
 U = polyurethan resin
 X = acrylic resin
 Y = acrylic resin
 Z = divers

Variante

intern

Surface

Standard

0 = smooth
 1 = micro structure
 2 = middle structure
 3 = coarse structure
 4 = hammer finish

High abrasion resistance

5 = smooth
 6 = micro structure
 7 = middle structure
 8 = coarse structure

Gloss value

0 = tuff mat
 1 = mat
 2 = satin mat
 3 = satin glossy
 4 = glossy
 5 = high glossy

Effect

Tribo	E-Static
A	B = plain colours
C	D = dry-blend ans plain colours
E	F = metallic Frei bonding
G	H = metallic dry-blend
I	K = metallic Frei bonding
L	M = metallic external bonding
	T = metallic dry-blend circulation stable
	N = conductive plain colours
	O = metallic conductive

Colour

RA123 = RAL / 840 HR
 RG123 = RAL / 841 GL

X1234 = costumer colour
 XX123 = other colour
